EDUCATION

STANFORD UNIVERSITY
B.S. Computer Science (HCI/AI)
Expected June '21   GPA 3.84/4

+ **Co-Organizer at TreeHacks (treehacks.com)**: Built specific project challenges for a hackathon that hosted 1000+ students, and single-handedly brought in 30% of sponsorship to give students full scholarships
+ **Director of Community at #nofilter talks (nofiltertalks.com)**: Organizing an intimate local meetup that fosters unfiltered conversations with speakers such as Elad Gil & Balaji Srinivasan
+ **Voting member of the Univ. Committee on Academic Computing and Information Systems**: Successfully advocated for school-wide academic computing services that include public API access, student-led app development, and free cloud computing credits

SKILLS

Advanced: Python, JavaScript
Intermediate: React, React Native, HTML, C++, Swift, Kotlin, Java, AWS, Google Cloud, Azure, Git
Beginner: SQL, Jenkins, Gerrit, CSS

AWARDS

+ 1st place at Stanford Arts Hackathon
+ 1st place at Stanford d.school Understanding Users Challenge
+ Best Mobile App Hack at Stanford HackOverflow
+ 3rd place at SAGE international social impact competition
+ Top 10% in Cambridge University Math Exam (STEP)
+ Top 10% in international Math Modeling Contest (HiMCM)
+ Stanford Boothe Writing Prize finalist (35 out of 600+)

EXPERIENCE

INTUIT (POWER FINANCIAL PROSPERITY)   **Mountain View, CA**
Product Manager Intern   **6/2020 – 9/2020**

+ Incoming product manager intern on the Payments team

SOLVVY (AI PRODUCT FOR CUSTOMER EXPERIENCE IN B2B)   **San Mateo, CA**
Mobile Product Manager Intern   **6/2019 – 8/2019**

+ Designed and built a mobile developer SDK from scratch for both iOS (Swift) and Android (Kotlin) along with sample apps and tutorials
+ Launched an early-access program of the SDK beta to 6 customers, which cleared the roadblocks to secure an additional revenue of $2M per year
+ Conducted extensive user interviews and testing to iterate throughout
+ Increased sales efficiency by 20%, amounting to 100 hours of time saved, by building integrations with Salesforce, Slack and more

TRUE VENTURES (TOP-TIER EARLY STAGE VC)   **San Francisco, CA**
TEC Fellow   **6/2019 – 8/2019**

+ Selected as one of 15 fellows chosen from 500+ to intern with a True Ventures portfolio company, in this case, Solvvy, and study trends and company growth

XCALAR INC. (DATA ANALYTICS FOR BANKERS)   **San Jose, CA**
Product Engineering Intern   **7/2018 – 9/2018**

+ Increased CSAT by 10% and improved custom task completion time by 50% with a user onboarding experience redesign
+ Developed REST APIs for developers that increased feature usage by 7%
+ Shipped a front-end interface that allows business analysts to point to a previously saved timestamp and revert back to the data in time and wrote tests in Mocha
+ Deployed software license check-up with AWS Gateway, Lambda and DynamoDB
+ Built client dashboards for compute performance with D3.js, Typescript and Less

UNIVERSITY OF EDINBURGH, UNBIAS PROJECT (ML BIAS)   **Edinburgh, UK**
Sole Student Research Intern   **6/2018 – 7/2018**

+ Built an experimental online form that allows youth to evaluate algorithms in use, receiving 1k+ qualified responses, resulting in a published ACM paper
+ Designed experiments to extract the public perception of bias in ML algorithms

PROJECTS

+ **CodaLab:** Product-managing a web platform for reproducing published ML (machine learning) research results, currently used by 20k+ researchers
+ **Accountable:** Built a mobile app in React Native and Firebase from ideation to research to prototyping to implementation. Achieved a 7-day retention of 15%, Daily Active Usage of 6 mins, and 33% second-order referral rate.
+ **NEU:** Led a digital viewer experience bid for San Francisco Ballet and Opera with wristbands, digital photography, and AR (actual reality) that won 1st place.
+ **Samaritan:** Designed a blockchain-based digital prototype for efficient, shared verification of whistleblower submissions to 220+ investigative journalists in 80 countries at International Consortium of Investigative Journalists, largest of its kind.
+ **Reconnect:** Launched a behavior change initiative to reduce loneliness and build meaningful connections for 30+ mental health patients, with an NPS score of 80+.
